Powder**

G Force™

Knowing that growing antlers and maintaining top condition in your bucks is critical to reaching their full genetic potential, Head Gear developed G Force™ to fortify rations, help maximize return on your investment and support profitability in your operation.

G Force™ is a scientifically formulated, all-natural supplement designed to provide nutrient support in growing and developing deer, especially ideal for bucks.

Contains amino acids, a balanced vitamin/mineral complex, targeted enzymes, micro-encapsulated live (viable) naturally occurring microorganisms and other nutrient rich ingredients. Use G Force to help you grow healthy, large deer and big antlers.

G Force Contains The Following Features and Benefits

- ⊕ Specially Formulated Amino Acid Blend - Building blocks for proper bone & muscle growth
- ⊕ Proprietary Calcium/Phosphorous Complex to support absorption and proper bone growth
 - Multiple natural sources of calcium, including milk calcium combined with bioavailable phosphorous to support proper bone growth
- ⊕ Optimized Vitamin and Mineral Complex
 - Including Vitamin D3. The primary function of vitamin D is to elevate plasma calcium and phosphorus to a level that will support normal mineralization of bone as well as other body functions.
- ⊕ Targeted Enzyme Package
 - Designed to support proper digestion of feedstuffs
- ⊕ Micro-encapsulated live (viable) microorganisms
 - Probiotics to help maintain proper gut flora and support a healthy digestive system
- ⊕ BuckSweet™ - Flavor enhancer to promote consumption

Feed G Force as a top dress or mix in feeds during growth season (ideally February-August) at 10 grams per head per day for powder formula, 20 grams per head per day for pellet formula. Powder is available in 5 lb. & 20 lb. pails (10 gram scoop in each pail). Pellets are available in 20 lb. pails (20 gram scoop in each pail).
